Acme Cloud - Billing and Refund Policy

1. Plans and pricing

Acme Cloud offers three plans. Free includes 5 GB of storage. Personal costs 9.99 USD per month or 99 USD per year and includes 2 TB. Business costs 15 USD per user per month, billed annually, and includes 5 TB per user plus admin controls.

Annual plans are paid in advance for twelve months. Monthly plans renew automatically on the same day each month until you cancel.

2. Invoices and receipts

We email a receipt after every successful payment. All invoices are also available in Settings > Billing > Invoices, where you can download them as PDF files.

Business customers can add a company name, billing address and VAT number in Settings > Billing. These details appear on all future invoices; past invoices cannot be reissued with new details.

3. Payment failures

If a renewal payment fails, for example because a card has expired or was declined by the bank, we retry the payment three times over seven days and email you after each attempt.

To fix a failed payment, update your card in Settings > Billing > Payment method. The outstanding amount is charged immediately after you save a new card. If all retries fail, the account is moved to the Free plan. Files are never deleted because of a failed payment, but syncing stops if you are over the Free storage quota.

4. Refunds

You can request a full refund within 14 days of your first purchase of a Personal or Business plan. After 14 days, payments are not refundable, except where local consumer law requires otherwise.

Annual renewals can be refunded if you request it within 7 days of the renewal date and have not uploaded files since the renewal. Monthly renewals are not refunded.

If you were charged twice for the same period, contact support with both receipt numbers. Duplicate charges are always refunded in full, usually within 5 to 10 business days depending on your bank.

Refunds go back to the original payment method. We cannot refund to a different card or as account credit.

5. Cancelling your subscription

Cancel at any time in Settings > Billing > Cancel subscription. Your paid plan stays active until the end of the period you already paid for, and then the account moves to the Free plan.

Cancelling does not delete any files. If you store more than 5 GB when the account moves to Free, your files remain available to view and download, but new uploads are blocked until you are under the quota.
